Palzer Ought To Have Some Boxing Schooling Or Get His Sometime Sure

By James J. Corbett Ex-Heavyweight Champion of

He Licked Wells, but English Champion Superior In Blows and Defence; Palzer Didn't Know How to Defend Self and He Had Better Learn Right Now-General Chatter.

TEW YORK, N. Y., July 6 .- Al Palzer is affectionately referred to by ardent admirers as an enlarged edition of Terrible Terry Mc-Govern, and the description seems to fit him well, to judge from the style of fighting he has adopted and by adhering to which closely he has won a respectable string of victories.

There is no man I can recall among the heavyweights of the past two decades with whom one might compare this youthful aspirant for championship honors, unless it may be Thomas Sharkey, esquire. The sailor and the lowan resemble each other in aggressiveness. Sharkey knew but one thing when in the ring and that was to tear into his adversary regardless and trust largely to luck to put the

and trust largely to luck to put the wallop over.

Palzer has adopted the same rushing tactice that made famous the former pride of the navy. But Al is possessed of several natural attributes that the lith street beniface could not boast of during his fighting days; weight, phenomenal strength and extreme youth are among the advantages. Also Al hits quite as hefty a punch, if not more so, and glories in recuperative qualities that seem to defy the laws of nature.

I have watched Palzer in the majority of his ring battles, and particularly in the encounters with Kaufman and Wells he has been forced to submit to enough punishment in each instance to kill an ordinary person before calling on his wonderful reserve powers to wear his man down and finally put over the finishing touches. Sharkey could hit hard, as any of his former opponents will testify. But his punches were of the wild swinging variety and he carried no other guns worth mentioning. Palzer has a greater assortment of wallops and his straight punches transmit terrible punishment.

In the Bombardier Wells-Palzer bout

In the Bombardier Wells-Palzer bout the one thing that impressed me more than anything else was the latter's weeful lack of defence. He is all offence and knows positively nothing at all of the science of the game that teaches the blocking of blows with other pertions of the snatumy than at which they have been almed. I wonder what Tem O'Roucke was deing with this big fellow all the while he had him in charge. Certaint it is this department of Palzer's boxing education has been sailly neglected. It may be that Al is of the slow thinking kind that it is difficult to teach, and one who learns better by actual experience than in practice.

Still, one would imagine the several beatings he has assimilated to date would have the effect of causing him to try to block a punch occasionally. Nature teaches us defence of some sort, if only a crude style, but Palzer either scorns the use of a protective system or else he can't think of more than one thing at one and the same time.

Wells, and by the way this lad outclasses all other heavyweights in the game in point of still, made Al ion for the spectators by the way his made allows of the spectators by the way he manhanded his much larger rival. manhood must succumb to the volume of punishment absorbed, even in victory. Those who are advising the big fellow will do well to take the tip, if they have his interests at heart. Give this boy a thorough schooling in certain branches of the science before sending him to certain slaughter by our dark-skinned brethren of the padded glove.

Johnny Kilbane, featherweight champion, will need a body guard if he continues to turn a deaf car to the appeals, of Johnny Dundee for a match. Dundee is an Italian who adopted a Scotch fighting monicker, and threatens to invoke the aid of the Black Hand to convince the champion he is entitled to a crack at the honors.

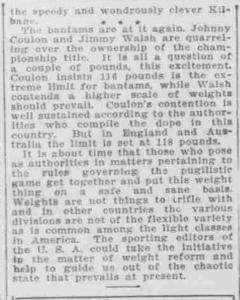

Kilbane and Dundee were matched to box 10 rounds in this city about two months ago, but a few days before the date set for the bout Dundee was "canned" and another boxer substituted. The alibi of the promoters at the time was the rather mediocre showing Johnny had made a few days previous in an exhibition with Chicago Charley White, and which they claimed injured his drawing powers.

Whatever the reason Dundee did not get the chance to match his skill with that of Attell's conqueror and that is why he waxeth wroth at the champion and the heal promoters who stalled

why he waxeth wroth at the champion and the local promoters who stalled him out of the contest. Since that time Johnny has met and defeated the best of the division in the east. Recently he has been devoting his time cently he has been devoting his time in the worthy attempt to arrange a 12 round hout with Kilbane at the latter's home city of Cleveland, but fate seems to have picked film out as a mark, as negotiations were called off. Dundee is regarded lecally as the one boy of this neighborhood who stands the chauce of holding his own in a match with Kilbane, and the latter may think so, too, as he has not exhibited any great desire to mix it with the little Dago. The champion evidently prefers to await the arrival in this country of Jem Driscoll and with not risk his reputation in a bout with a clever boy like Dundee before talking business with the Engilsh champion. Driscoll nd Kilbane would draw capacity business at the Garden, and that's too big a proposition to have blocked by the Dundees and their like.

A Driscoil-Kilbane match would prove a treat to fistle lovers. I am sure. When the Briton was last here he made a big hit with local sports by outboxing the supposedly invincible Attell. Jem is due to light on our shores in the very near future, and although coming over without anything in the way of a contract or piece of paper of my description binding him to box Killane, it is a cinch John is the bucko he's after.

WHEN WILL BOXING TAKE IT'S FINAL BRODIE? JUST A QUERY

This inglorious fourth might lave been same as regards firecrackers and skyrockets, but it certainly was not same in the world of padded gloves, padded on the backs. While baseball produced good sport nationwide, two terrible flascos resulted in the realm of swatdom. And we had the pleasure of seeing locally something just as bad as possible—worse than possible:

It still seems foolish to say anything

as possible—worse than possible!

It still seems foolish to say anything about the Johnson-Flynn song and cance. Only one thing to say is that it is over. That's the best news. It ended just as it should have ended police! Bloody murder is chaste and refined compared to it. And the public's money!

The Wolgast-Rivers affray was at least a boxing battle. But fouls spoiled it, and an unpopular decision made it worse. Our little local affair in the over river town also was ruined by the unsportsmanlike conduct of a participant, and fouling.

One thing is sure, bifity bang sure.

If boxing—boxing, mind you, not shughter house scrapping—can live another five years in a civilized country, it will have to be cleaned, swept clean as a New England kitchen. It is the greatest sport in the world, and fight fans ought to weep like fishes over its fate.

With Elegan forling.

With Flynn fouling a negro at 'Vegas, outpointed by the black in science, with Wolgast fouling a Mexican at Los Angeles, outclassed by the Latin, and with Moran fouling a negro at Juares, outloxed and outmastered, it is high time for a white hope, a good, clean white hope whe at least can do the first and best thing, take a fair licking and take it like a regular man.

San Antonio begins to look more and more like the club that must be bested by Houston to get the flag. The San Antonio team has returned to the some groupds after a most successful road trip on which two-thirds of the games were won. An equally as good record is being made at home. While the Bronchos were doing this Houston had a decided reversal in the clash with the north Texas teams and San Antonio made a big gain. The strength of the San Antonio team has been due almost entirely to the slugging ability of men, although the pitchers have been going considerably better, especially Goodwin and Browning. The team has been patched by the addition of Jack Burke, the old semi-professional and Southwest Tayas leaguer relationals. outhwest lexas i weak hitter. But lately Burke has been stinging the ball with a vengeance and has been more than earning his salary. Houston and San Antonio will have a wad of games to play toward the close of the season and these games will undoubtedly decide the pennant. The first games will begin July 25.

The first games will begin July 25.

The surprise of the past week has been Fort Worth, the cellar champions, the team may have had the lead the team now has. The pendant will undoubtedly lay among the three teams mentioned with the relative to the past week has been fort worth, the cellar champions, the team may be three teams mentioned with the relative may be a supplied to the past week has been fort worth. While the team is still at the bottom of the heap, yet it has been showing a strength that entitles it to consideration from the best teams in the league. Lemon, the catcher secured from San Antonio, has proved a tower of strength. He is playing gilt edged ball and hitting well. Spencer has done little and the team is now being worked with Thompson at short. Salm, formerly with the St. Louis Browns and later with Galveston and Houston, bolstered up a spot that has been weak all the season. In that has been weak all the season. In the outfield, though, real magic is at work as young Friersan, canned because he could not hit and then recalled, has been pounding the ball. Cooper and Howard are all going good. Moreover, the team is plaving inside ball. The pitchers are still weak, but the men behind them are winning games they might have won earlier in the season with the same style of baseball. If the season had been split, as Morris wanted, it is more than probable that Fort Worth world have been able to give the other teams a merry chase. The aggregation is now holding its own in every way.

Just at present it looks as if Austin was destined to be the goat. Pennant winners of last season, the team has had a shump that has put them on the

tendance. The local fans began to "hurrah" them and that has done much to send them to pieces. The rumors that Hunter Hill, former manager of the Houston team, was to replace "Red"

Miller is a Herculean Roumanian with literally no sense of humor. With literally no sense of humor. With him every incident of the day's existence is as serious as a smash on the jaw. Once, out at Colma training camp, they fixed up an electric chair with a push button attachment for him, and it was a long time before they could explain the joke to him. He thought the conversion of the chair into a galvanic battery was due to some vagary of the climate or that maybe it was something he are that affected his muscles.

When Miller first became enamored of prize-ring pastimes he was employed as a motorman on the street cars. He used to present himself at the training quarters of any prominent pugilist who happened to be undergoing preparation for a match, and volunteer as sparring partner.

He never cracked a smile, but he performed more dashing. When he reached his fault mementum the ropes bellied and the posts gyrated. The press men wished that night that they had seats up in the gallery instead of under the least of the fighting platform.

It got to be that he was quite a drawing card around the camps, the attendance being visibly swelled whenever it was known that big Charlie Miller was to appear.

In time Miller became a stand by with promoters of four-round bouts in San Francisco, and he continued to be the heavyweight comedian of the Queensberry ring. He loved the stress of fierce fighting, and he had an utter disregard for punishment.

But he did not catch on to the continue of the continue of things, somehow. Of the ordinary leads and counters of boxing he did not seem able to obtain a grasp. As they used to say of Sharkey in his cub days, he could not hit the post-office unless you let him swing at it.

With the Friday night patrons Miller became as popular as with the habitnes of the training camps. He was matched with scrub heavies of indifferent caliber, and he performed with a tolerable share of success.
